

HIV Incidence Assay Meeting

May 2, 2013; 8 am – 5 pm
Bill & Melinda Gates Foundation, Seattle WA

Goal:

To provide an update from recent activities and new developments aimed at the identification of a biological assay for population-based incidence measurement.

Agenda:

Time	Topic	Presenter
8:00 – 8:10	Welcome and Introduction	Christine Rousseau
CEPHIA UPDATE		
8:10 – 8:50	CEPHIA I update: Results of recent analysis; did we meet our TPP; what is missing?	Gary Murphy
8:50 – 9:30	CEPHIA II update: Progress on sample collection; map of support to other teams.	Chris Pilcher
9:30 - 10:10	Analysis process and challenges for new biomarker data. Review analysis methods for single biomarker; address novel approaches that will be required for multiple biomarkers or non-hypothesis driven approach	Alex Welte
10:10-10:30	<i>Break</i>	
NEW BIOMARKER PROJECTS.		
Each session will address: What has been completed so far? What sample panels have been evaluated? What data will be expected over the next 6 months? When will you know the FRR and MDR?		
10:30 - 11:10	Metabolistics progress	Steven Slupsky & Carolyn Slupsky
11:10 - 12:50	University of Pittsburg	Donald Burke
12:50 – 13:00	Timeline and next steps (10 minutes)	Christine Rousseau
13:00-14:00	<i>Lunch</i>	

14:00-14:40	CRESIB	Denise Naniche
14:40- 15:20	Duke University	Georgia Tomaras
<i>15:20-15:40</i>	<i>Break</i>	
15:40-16:20	MicroRNA method.	TBD
16:20-16:50	Open discussion	Christine Rousseau
16:50-17:00	Wrap up session	Christine Rousseau
